Risk Communication

Example drug warnings:

NSW Health has issued a drug warning:

Fentanyl and acetyl fentanyl are circulating in Sydney and may be sold as methamphetamine.

These drugs are dangerous and can cause overdose and death.

Look out for unexpected effects such as drowsiness, slow breathing, loss of consciousness

Stay safe:

- Ring 000 if you or anyone else experiences these symptoms
- Don't use alone
- Carry naloxone
- Test your drugs the best way you can
-

Drug Warning

Light blue "Lego" MDMA pills circulating in NSW

- Up to 3x common strength
- Dose may be variable in pill

Remember:

- Dropping in the heat is riskier
- High temps increase the neurotoxic effects of MDMA
- If you're planning on taking don't peak in the heat

Look out for:

- Excessive sweating or stopping sweating when active/hot
- Uncontrolled repetitive movements
- Confusion or agitation

Get your mates help if they are in trouble

Stay safe
